

PATC Meeting Notes, Sydney, Australia (12/05/2023)

John Case

All links referenced in these notes can be found on the links page on our TC website:

<https://tcpaasa.org/meetingresources/>

Please refer to slides for details.

Committee Reports

Medals and Awards, Jay Maynard

- Gold Medal, R Bruce Lindsay Awards and others: need letters with nominations, update CVs! Number of JASA publications, special sessions..., all taken into consideration.
- May be asked to write a letter of recommendation
- Whole process is confidential.

No other committee reports at meeting.

Membership— Apply to be a full member of ASA!

Open positions

- **director of NCPA** : jobs.olemiss.edu, look for applicants. Currently 37 faculty/staff, 37 graduate student—contact Nathan Murray
- **UCLA- open Physics position**— Tell Steve Garrett
- **San Jose University has open position for ME chair**

Penn State ONR Symposium on Acoustic Metamaterials

20-21 March 2024

- Registration: sites.psu.edu/metamaterials
- Contact Amanda Hanford for further information.

New Fellows

Libertario Demi
For contributions to lung ultrasound

Lixi Huang
For contributions to biomedical noise control, aeroacoustics, and acoustics

In Memoriam— Richard Rasket

- Many good memories of his presence and contributions in acoustics
- Several TC members shared some thoughts and words

Future ASA Meetings:

2024 Spring - Ottawa, Canada 13-17 May

- Sessions are finalized, refer to slides for final list

2024 Fall: Virtual, Nov. 11-15, 2024

- Tyrone Porter: rigidity in timing to make accessible for people around the world. Asking TCs to think outside the box— what could you do online that might not be possible in person. Volunteer demo sessions, lighting round talks. Try to be creative!
- Registration cost? Not decided upon yet.
- Student video lightning talks, 5 minutes
- Virtual demo of equipment, tutorials.
- Have some time slots saved for contributed talks?
- No more printed program— but PDF online and App available
- Accessibility of acoustics, [frugal acoustics](#), making measurements
- How does co-sponsoring work? TBD
- Vic Sparrow: no travel costs, so can get people to participate. How to draw more people to physical acoustics? How to encourage people to choose our slots over other TCs. How to make this attractive to a broader audience?
- Steve Garrett: why is it that you can't go to more than one session? Recording?
 - Some people don't want their talks recorded
 - Shubha Marovada: pushing for talks to be recorded, but can run into issues with Gov't sponsored talks
 - Some might be recorded, some might not?
- Networking online: sessions with advisors and students, break out into rooms, or Employers and people looking for positions
- Interactive activities with cameras on, encouraging participation

2025 New Orleans, LA (Joint with ICA) 19-23 May

Chair: Mark Hamilton

- ICA will not require conference proceeding papers.
- POMA will be running in 2025.
- Final proposals should be submitted by end of Ottawa meeting
- NEED international influences (ICA likes to see this)
 - May get some recommendations from ICA
- PATC currently has a good number of sessions— keep them coming!

CIRDI

- SURIEA, always looking for new advisors
- Asking to use part of TI funds for 2024
- Send in suggestions to Chris, it's desired to have all TCs represented on CIRDI committee

Publications

- Special Issues typically have very high impact factor (IF) — increase the overall IF of JASA
- JASA IF ~2
- Many special issues open right now— submit!
